

NEW

M04-D DOUBLE-CHANNELS BAGGING CONTROLLER

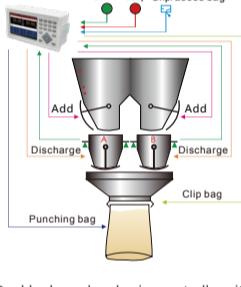

Description

M04-D bagging controller is specially designed to control double scale automatic packing machines. It can be widely used in the industries of feed , grain, seed, chemical and etc.

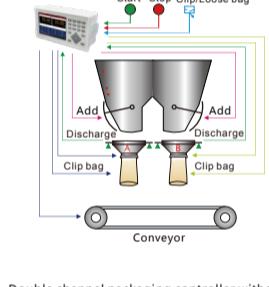

Function

New algorithm and optimized system make weighing faster and more precise. Concise operation interface with a 5 inch TFT LCD A/D conversion rate: 960 times/sec., extremely high speed. Two lines serial port: RS232 & RS485 ports and USB port as standard. 8 in and 12 out as standard, can extend to 12 in and 16 out. All ports can be defined by user.

Application

Double channel packaging controller with hopper

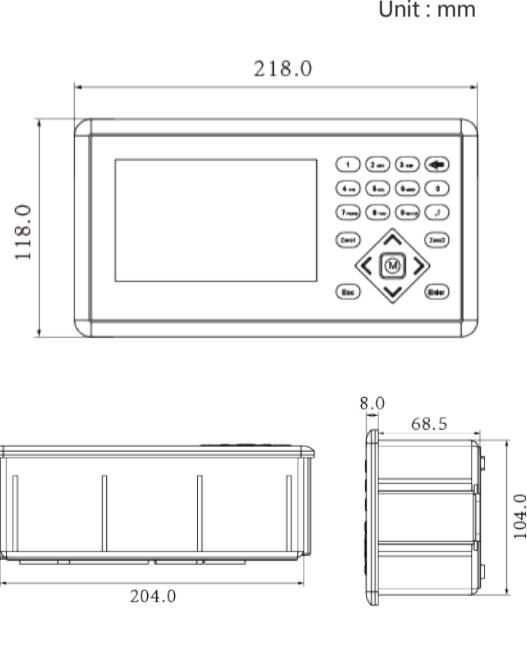

Double channel packaging controller without hopper

M04-D DOUBLE-CHANNELS BAGGING CONTROLLER

Technical Parameters

| | | |
|-----------------------|--|--------------------------------|
| General specification | Power supply | AC90~260V50Hz(or 60Hz) ±2% |
| | Working temperature | -10 ~ 40°C |
| | Maximum humidity | 90%R.H without dew |
| | Verification standard | Class III 6000e, 1µV/d |
| | Power | about 15W |
| | IP level | front panel IP65 |
| A/D conversion | A/D type | 24-bit Delta-Sigma |
| | A/D conversion rate | 120/240/480/960 times/sec. |
| | Non-linear | 0.01% F.S |
| | Gain drifting | 10PPM/°C |
| | Input sensitivity | 0.02uV/d |
| | Input range | 0.02 ~ 15mV |
| | Display resolution | 1/100000 |
| | Load cell power supply | DC5V 125mA (MAX) |
| | Input resistance | 10MΩ |
| | Zero adjustment range | 0.02 ~ 8mV (load cell 2mV/V) |
| I/O part | 8 in and 12 out as standard, can extend to 12 in and 16 out. | |
| | 8 input ports, active low | |
| | start, emergency stop, slow stop, A zero, B zero, A clip/release bag request, B clip/release bag request, A manual feeding | |
| | 12 output ports, single drive current 500mA | |
| | run, stop, A/B slow feeding, A/B medium feeding, A/B fast feeding, A/B fixed value, A/B clip bag | |
